

# AVID

*Sea Skiffs*

AVID Sea Skiffs introduces the first of its boats, the 24' Sea Skiff. The AVID Skiff is being built with no compromise on materials or technology. All equipment and materials are the best that the marine industry has to offer.

The boat measures 24'8" and has a beam of 9'4". The draft is 28" and the hull features a full keel to protect the running gear, enabling the owner to safely cruise in rocky waters and shallow coves. The boat has over 8 full inches of walkway around the windshield for safe and easy access to the forward deck.

A traditional design, the AVID 24, sports a high flared bow, large molded spray rails and a graceful sheer line that sweeps down to a beautiful tumblehome stern. Conventional inboard power is delivered by a 200 hp YANMAR diesel, which enables the skiff to cruise at 22-24 knots. Fuel capacity is 128 gallons.

The cockpit of the AVID measures over 100 sq. feet and contains an integrated stern bench seat. In addition to the 4 Lee rod holders in the gunwales, the AVID 24 has under-gunwale rod racks capable of carrying up to 8 spinning or fly rods up to 9 feet in length, with their tips fully protected from careless feet.

The helm station contains full instrumentation, EDSON Steering Wheel, Ritchie Compass, Blue Seas Switches & a Teleflex Electronic Single Lever Control. In a nod to the traditional New England Bass boats of yesterday, each AVID 24 comes with a teak stern tiller and rear mounted Teleflex electronic single lever control for ease of trolling or leisurely cruising. The practical yet functional forward cabin contains a portable head, bench seats with storage lockers for tackle, PFDs, jackets and gear, and serves as a place to get out of the weather when necessary.

Options include a Teak Windshield, Canvas Top and Side Curtains, Swim Platform, Teak Cockpit Sole, Teak Windshield and Full Electronic Package. Hull color is the owner's choice and is included in the base price of each skiff.

We don't plan on building more than 18 of the skiffs in any given year. All skiffs will be sold direct to our customers.
